

About this: *CoE Enrollment - Year to Year Comparison* report.

This compilation is produced annually by the Dean's Office for use by internal and external stakeholders. It is designed to quickly show year-to-year enrollment differences and has the most commonly requested demographic and student-level details.

These data are built upon official enrollment sources, however, totals and tables include ABE/PABE students (a joint program with the College of Agriculture), differentiate Professional Masters students and fine-tune School/Discipline groupings. These value-added modifications better reflect the operations of the college but will deviate from the university's official sources such as the Data Digest.

If you have questions about this year's *CoE Enrollment – Year to Year Comparison* report, please email tanners@purdue.edu.

If you received this report via email or have an old copy, the most current version may be found on the College's [Facts and Figures](#) page.

COE Student Enrollment--Year to Year Comparison

2023-24

ENROLLMENT BY GENDER

		2023-24	2022-23	Annual Difference	Percent Change
Undergraduate
